JT 9300 WG-PT

White gloss Intermediate calendered vinyl 80 µm, permanent clear adhesive, specially developed for short to medium-term applications on flat and slightly curved surfaces

The new JT 9300 Intermediate Calendered range is designed for challenging projects that require excellent printing performance and visual impact. It offers a wide choice of finishes and adhesives - and a complete series of LF 9300 UV overlaminates, for additional resistance to physical challenges.
Ensuring high performance on flat and slightly curved surfaces, this series benefits from 5-year outdoor unprinted durability.
