

# DuraCoat® Foils for Gerber Edge® Printers

Sign shops and printers can create high quality, durable signs and graphics with DuraCoat® foils for Gerber Edge, Edge 2 and Edge FX printers. Available in over 30 process and spot colors, products include 55 yard cartridges and refills in 55 and 100 yard lengths. DuraCoat is designed with resins and automotive grade pigments delivering superior vibrancy and excellent UV resistance for both indoor and outdoor applications. DuraCoat saves more per square foot, when compared to OEM prices, without sacrificing print quality.

## SAVINGS

- Save up to 40% off OEM prices by using DuraCoat® refills.
- Cartridges can be purchased once and then refilled for a lower cost per square foot - without sacrificing quality.
- Great performance in cold & ambient printing environments
- 2 different lengths allow you to purchase only what you need

## QUALITY

- No more wrinkled foils - attached take up core ensures perfect alignment every time.
- Exclusive anti-static backcoat helps reduce particle attraction during the printing process - the leading cause of printhead damage.
- UV, chemical, and weather-resistant - resulting in 3-5 years of outdoor life.
- Excellent detail in fine line and halftone graphics.
- Every ribbon is supplied with a free printhead cleaner.
- Patented End-Sense gauge signals the end of a ribbon, to avoid running out during print jobs.

## CHOICE

- 30 vibrant colors ideal for interior and exterior graphics, P.O.P. displays, vehicle and helmet wraps, film positives and more.
- Super Opaque Black and White foils feature an extra thick coating for one-pass, high opacity graphics.
- Clear, glossy UV-Guard can be printed over your graphics to block damaging UV rays and add one year to performance life.
- Cartridges can be purchased once and then refilled for a lower cost per square foot - without sacrificing quality.
- Compatible with a variety of media particularly vinyl.
