

JT 10500 WG-BFG (ex.JT 5529 B-Free)

White gloss conformable polymeric, 55 µm with permanent micro-textured bubble-free adhesive, designed for moderately convex and curved wrapping surfaces

With 15 years of experience in the fields of conformable polymerics, Mactac has been a pioneer in designing flexible polymeric films.

The JT 10500 WG-BFG can conform to less demanding convex and curved wrapping surfaces, providing vibrant print results and an excellent application experience.

KEY FEATURES

- ***Conformable on compound curves and on moderately concave and convex surfaces**
- ***Vibrant print colours even after partial elongation**
- ***Bubble-free grey adhesive for effortless application and optimal opacity**

SPECIALLY DESIGNED FOR

- ***Medium to long-term applications**
- ***Use on moderately convex and curved wrapping surfaces.**
