[Inkjet with aqueous ink](#)

Universal, glossy PE coated photo paper for poster and photo applications

This micro porous coated, glossy photographic paper with PE film on both sides, is suitable for indoor posters and photo applications and offers outstanding value for money. The coating is optimised for use with aqueous ink systems and enables quick drying. Prints impress with high colour brilliance and a broad colour gamut. Thanks to a weight of 250 gsm, this product also offers particularly high opacity.

ADVANTAGES

- Excellent colour rendition
- High resolution of details and excellent contour sharpness
- High ink absorption capacity
- High opacity, thanks to a heavy base paper
- FSC® certified

PROPERTIES:

ENVIRONMENTALLY FRIENDLY

APPLICATIONS

LARGE FORMAT PHOTO

Name	Value	Tolerance	Norm
Weight [g/m ²]	250		ISO 536
Thickness [paper] [μm]	245		ISO 534
Chromaticity [D50/2°] M0	L* 93.1 a* 2.0 b* -9.0		ISO 13655, M0
Opacity [%]	99.2		ISO 2471
Whiteness [R457] front side [%]	93		ISO 2470

GENERAL TIPS

To maintain quality, the paper should be stored and converted under the following conditions of 30-65% relative humidity and at temperatures of 10-30 °C. Lamination (hot/cold) is recommended to secure long-lasting unchanged image quality. Over time unprotected dye colours will deteriorate through atmospheric processes (does not apply to pigment colours).
